

Max Bielka

Curriculum Vitae

Education

- 2014-09 – **IT Specialist for Application Development; 3-year apprenticeship shortened to 18 months, BBS**
2016-01 *GuT*, Trier

Professional Experience

- 2024-11 – **Solution Manager**, NORDCLOUD – AN IBM COMPANY, Gütersloh – Remote
Present Cloud solutioning, presales, and deal architecture
- Responsible for solution design, presales, and commercial development of cloud migrations, managed services, and modernization projects in the DACH region.
 - Creation of architecture approaches, cost models, SoWs, solution reviews, and delivery setups for complex customer proposals.
 - Interface between customers, sales, delivery, legal, IBM Consulting units, and hyperscalers.
- 2023-04 – **Solutions Architect**, FUJITSU SERVICES, Hannover
Present Solutions Architect BACS
- Solutions Architect for Microsoft Azure cloud-native development
 - Lead Architect for SAP on Azure proof of concept
 - Cloud transition from a private cloud environment
 - Cloud-native consulting for our customers
- 2022-02 – **Software Architect**, GEA FARMING TECHNOLOGIES GMBH, Bönen
2023-03 Software Architect
- Product development for milking systems
 - Interface with PO/PM for technical specifications
 - Technical decisions for our code architecture
 - Scrum Master activities to maintain team cohesion
 - Advanced support for other teams / projects
- 2021-01 – **Senior Software Engineer**, GEA FARMING TECHNOLOGIES GMBH, Bönen
2022-01 Software Engineering
- Product development for a herd management system
 - Development, support, and integration of a herd management product within a Scrum team
 - Full-stack software engineering: Spring Boot backend, Angular frontend
 - CI/CD with Jenkins and Azure DevOps
- 2016-11 – **Software Engineer**, ARVATO DISTRIBUTION SCS-IT, Gütersloh
2020-12 Software Engineering
- Product development for WCS (Warehouse Control System)
 - Development, support, and integration of WCS products
 - Full-stack software engineering
 - Global warehouse integration across 26 warehouses worldwide
 - Continuous integration / continuous deployment with Azure DevOps
 - On-site support for SCS-IT USA on multiple occasions
 - AI development, Udacity Bertelsmann Challenge Course
 - Development of neural networks with PyTorch in Python 3
- 2016-02 – **Software Developer**, OPC CARDSYSTEMS GMBH + IPROLUX S.A.R.L., Wasserbillig
2016-10 Software Development
- Full-stack development of POS (Point of Sale) systems
- 2014-09 – **Apprenticeship as IT Specialist for Application Development**, OPC CARDSYSTEMS GMBH + IPROLUX
2016-01 S.A.R.L., Trier
- Main area of responsibility: project processing and project execution
- Full-stack development of POS (Point of Sale) systems

Selected Deals

- 2025 **SaaS Transformation & Managed Services**, INDUSTRY: AUTOMOTIVE — DEAL SIZE: APPROX. 956K EUR
- Solution design for transforming existing software products into a cloud-based SaaS and managed-service model.
 - Contribution to architecture, operating model, security assumptions, pricing model, and commercial proposal structure.
- 2025 **Cloud Outcome Assessment**, INDUSTRY: MANUFACTURING — DEAL SIZE: APPROX. 109K EUR
- Solution development for an advisory assessment supporting a strategic SaaS transformation.
 - Structuring of assessment scope, proposal logic, delivery setup, and commercial model.
- 2025 **Cloud Foundation & Managed Cloud Services**, INDUSTRY: MANUFACTURING — DEAL SIZE: APPROX. 394K EUR
- Solution design for a cloud foundation, managed cloud services, and accompanying professional services.
 - Definition of landing-zone scope, customer onboarding, consulting components, and managed-service structure.
- 2025 **VMware Migration Assessment**, INDUSTRY: MANUFACTURING — DEAL SIZE: APPROX. 59K EUR
- Solution design for a migration assessment focused on data center, VMware, and migration planning.
 - Definition of delivery setup, role model, onshore/offshore split, assumptions, and commercial model.
- 2025 **Application Migration Assessment**, INDUSTRY: MANUFACTURING — DEAL SIZE: APPROX. 210K–252K EUR
- Solution development for an application migration assessment of a large heterogeneous application landscape.
 - Structuring of discovery approach, scope, delivery setup, role model, assumptions, and proposal documents.
- 2025 **Technical Application Operations RFQ**, INDUSTRY: RAILWAY / MOBILITY — DEAL SIZE: APPROX. 3.7M EUR BV / 6.3M EUR TCV
- Contribution to an RFQ response for technical application operations in an enterprise cloud environment.
 - Development of transition approach, operating model, role distribution, support boundaries, and delivery structure.
- 2025–2026 **Hybrid Landing Zone & Managed Services**, INDUSTRY: AIR NAVIGATION / CRITICAL INFRASTRUCTURE — DEAL SIZE: APPROX. 1.1M EUR + CSP APPROX. 1.3M EUR
- Solution design for a hybrid landing-zone, container, and managed-service solution with on-premises and cloud components.
 - Support with compliance mapping, detailed proposal revision, SLA/security topics, and commercial structure.
- 2025 **Workforce Management Cloud Platform**, INDUSTRY: INFRASTRUCTURE — DEAL SIZE: APPROX. 1.29M EUR
- Solution review and cost modeling for platform build, OpenShift foundation, service onboarding, and managed services.
 - Definition of roles, seniority levels, governance, tooling components, and nearshore delivery model.
- 2025 **AWS Design, Build & Manage**, INDUSTRY: MANUFACTURING / AUTOMOTIVE — DEAL SIZE: APPROX. 807K EUR
- Solution design and cost modeling for AWS platform operations, managed databases, cloud operations, and service management.
 - Alignment of Nordcloud service components within an IBM-led overall proposal.
- 2025 **Dedicated Cloud Operations Team**, INDUSTRY: PUBLIC / FINANCIAL INSTITUTION — DEAL SIZE: APPROX. 925K EUR
- Solution design for a dedicated cloud operations team with managed cloud operations and managed databases.
 - Definition of team structure, operating model, roles, responsibilities, and multi-year cost logic.
- 2025 **AWS Infrastructure Management**, INDUSTRY: SPORTS / DIGITAL PLATFORM — DEAL SIZE: APPROX. 1.8M EUR
- Support with solutioning for AWS infrastructure management, including dedicated-team and managed-service components.
 - Scope structuring for the design and implementation of a multi-tenant AWS architecture.
- 2026 **Mainframe-to-AWS Modernization**, INDUSTRY: AUTOMOTIVE — DEAL SIZE: APPROX. 174K EUR
- Solution design for AWS platform components within an IBM-led mainframe modernization program.
 - Delineation of landing zone, platform engineering, managed services, hypercare, and operational transition.
- 2026 **VMware-to-AWS EVS Migration**, INDUSTRY: LOGISTICS — DEAL SIZE: APPROX. 472K–949K CHF
- Lead in solution development for a large-scale VMware migration to AWS EVS with multiple migration scenarios.
 - Creation of migration strategy, landing-zone approach, role model, T&M cost model, and risk boundaries.
- 2025 **Managed Cloud Tender**, INDUSTRY: LOGISTICS — DEAL SIZE: APPROX. 388K EUR
- Solution design for advisory, cloud service management, landing zone, managed cloud environment, databases, and operations.
 - Support with proposal structure, customer clarification, delivery model, and assessment of tight RFP timelines.
- 2026 **Cloud Adoption & Engineering Support**, INDUSTRY: CONSUMER GOODS — DEAL SIZE: APPROX. 350K CHF
- Proposal development for Azure engineering, infrastructure as code, CI/CD automation, and cloud building blocks.
 - Definition of role profiles, seniority requirements, staffing model, and integration into agile customer teams.
